program.**

**Make a Difference,
Become a Mentor!**

Are you looking for fulfilling volunteer opportunity that benefits newcomer families in your community?

Do you have a few hours a week to make a huge difference in both your life and someone else's life for at least two short months?

Then, train to become a volunteer mentor and receive a certificate to support, guide, connect, and care for a newcomer family who can benefit extensively from your knowledge and expertise.

Who is a mentor?

A mentor is someone who support, guide, and care for a newcomer.

What is the purpose of Mentorship program?

To enable newcomers in a way that they can develop their own skills, strategies and capability so they can tackle the next hurdle more effectively with or without the mentor's presence.

1. You will directly and indirectly impact someone else's life
2. By becoming a mentor you can help to refine your own career path and goal
3. You will learn more about your own community resources
4. You will enhance your leadership skills
5. You will gain the best rewards of helping others. This is the reason you hear most often, and it's a great one.
